

# Heart Wreath

xxx 

## Things you will need:

A4 Paper in 3 different colours, scissors, prit stick or double sided tape, approx 29cm ribbon, stapler.

## How to make:

1

First you will need a piece of your coloured A4 paper and your ruler.

2

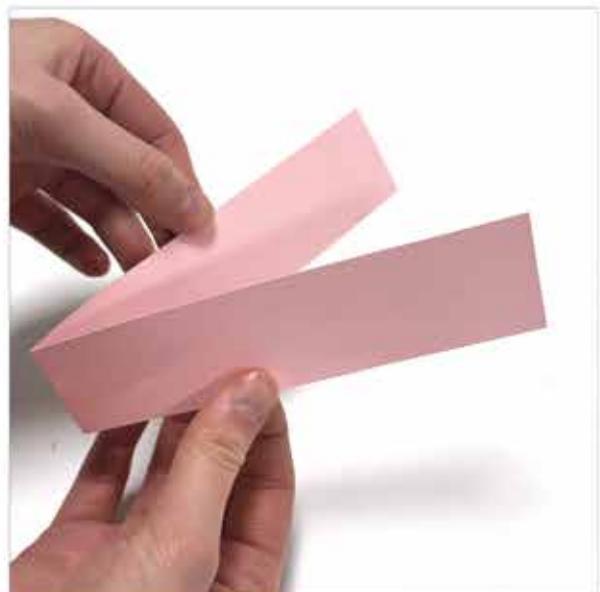

Down the longest side, measure several strips at 3cm wide. You will need 7 strips in total using the 3 different colours.

3

Cut out your 7 strips.

4

Fold in half.

5

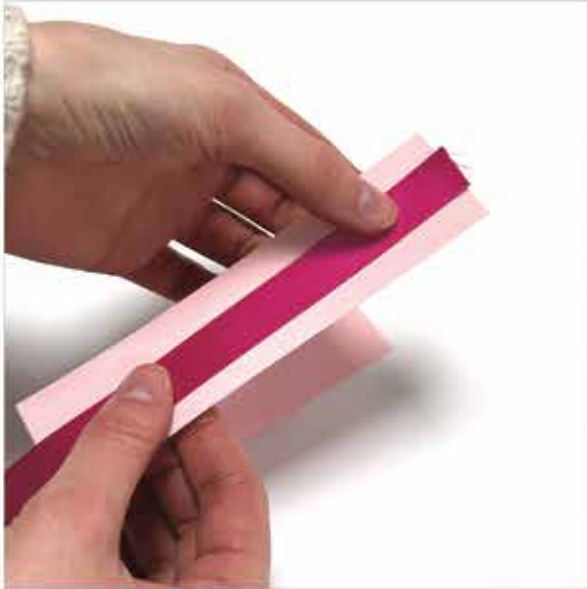

Glue the outside edge.

6

Fold inwards to create the heart shape and stick the sides together. Repeat with each strip, leaving 1 strip.

7

The last strip will have the handle added.

Take some ribbon approx 29cm long and place one end at the end of the strip.

8

Then fold the ribbon round to create a handle and both ends meet.

9

Keeping the ribbon held in place, fold the ribbon round to create the heart and secure all with a staple. The ribbon should be sandwiched in between the paper strip.

10

Glue a small area on the sides of each heart and stick together, repeat all the way around.

Your heart wreath is ready.
